Bring your KNX and Loxone devices to Matter...

Control all smart home devices in the app of your choice.

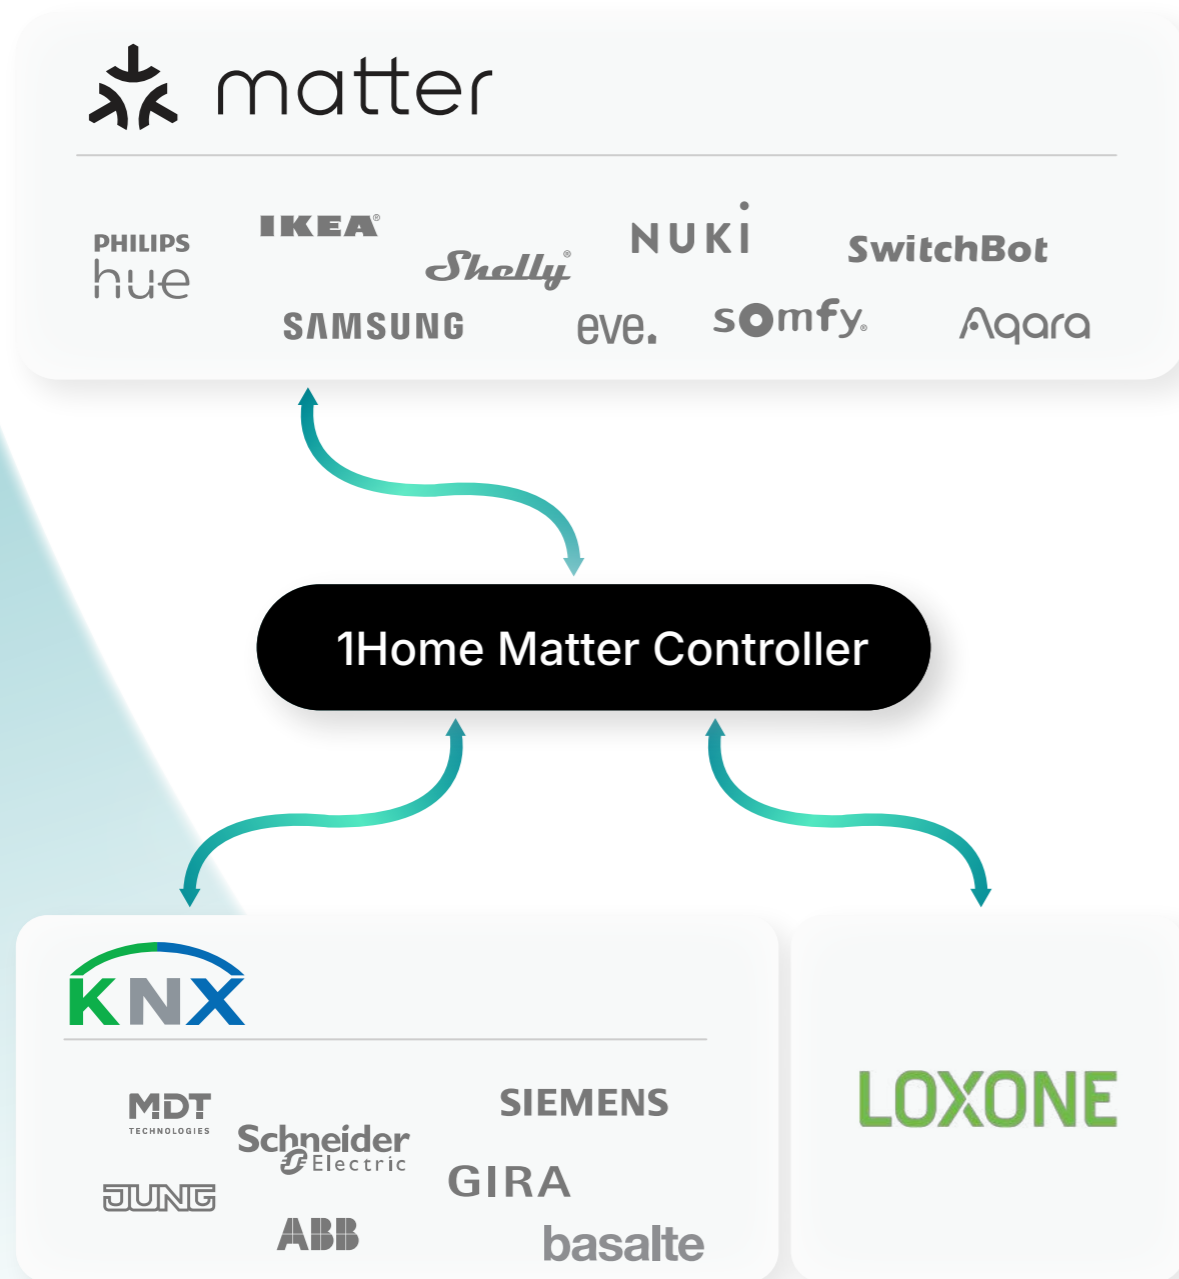

Leading smart home standards, connected.

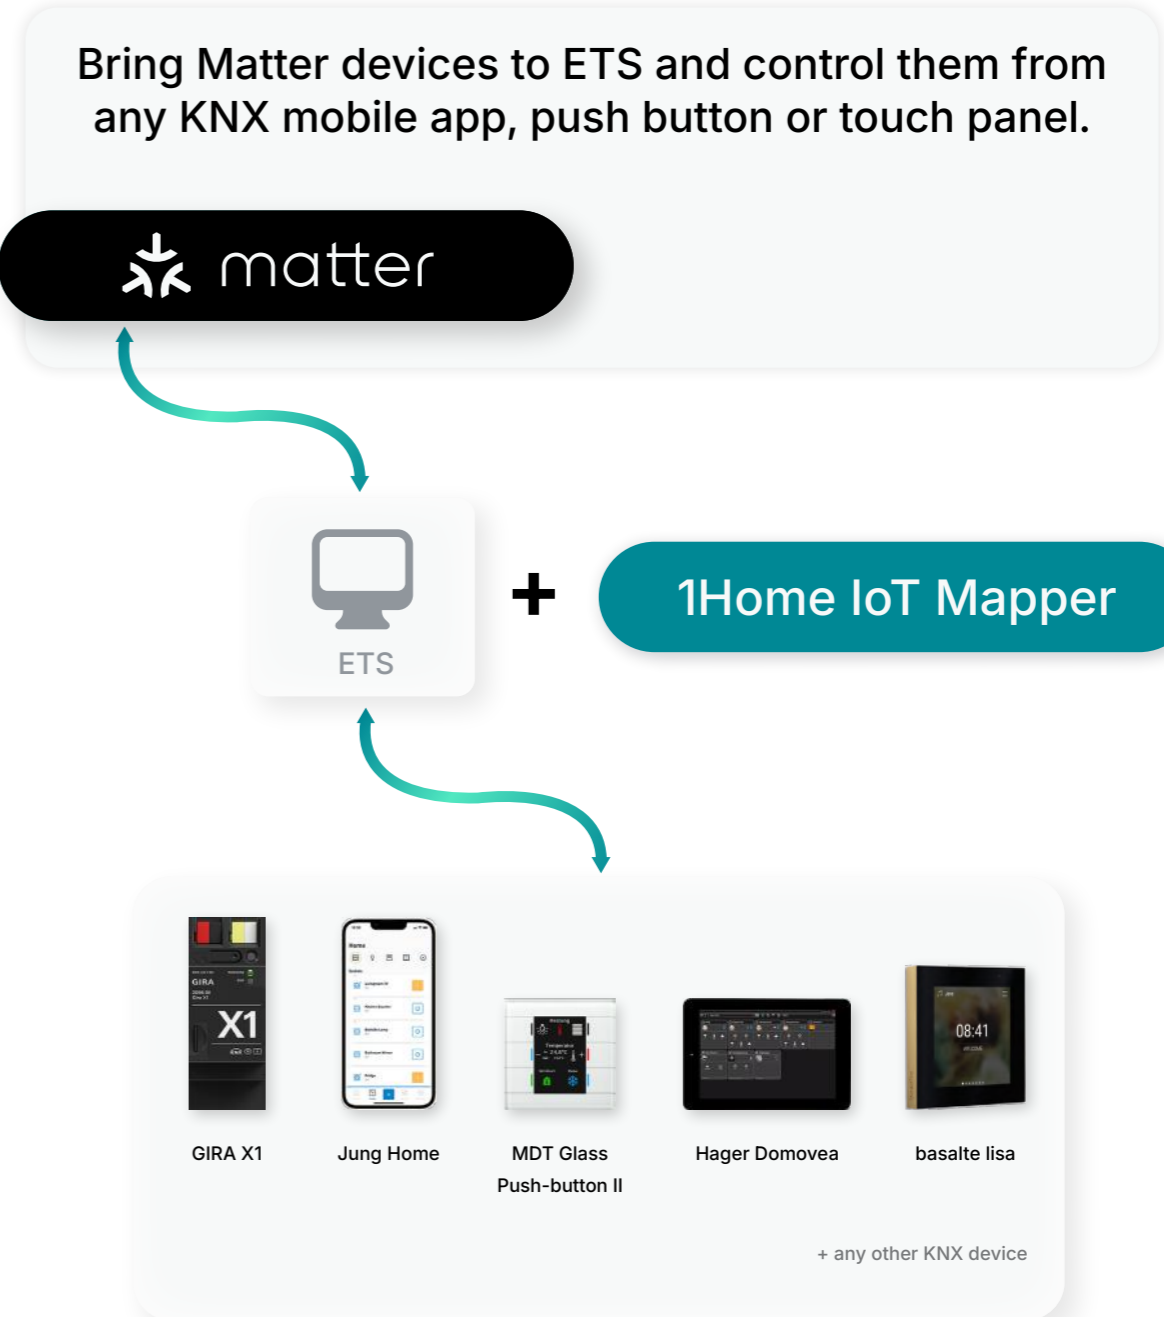

Matter Bridge enables you to bring KNX, Loxone and Matter devices under one roof.

...and to any Matter-enabled smart home app on the market.

Control your KNX, Matter, and Loxone devices as one system.

IoT Mapper

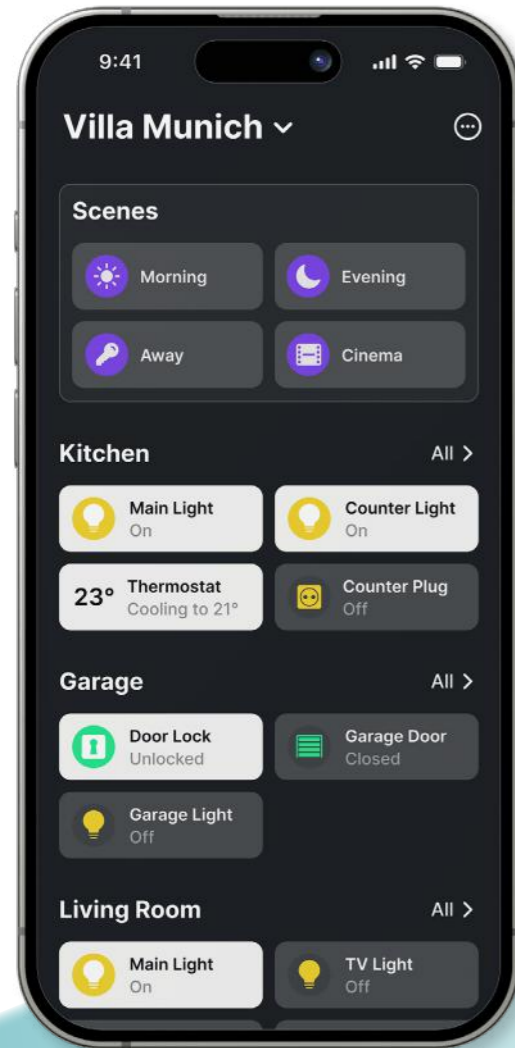

1Home App

Available on:

Modern control for professional smart homes

Control KNX, Loxone and Matter devices in a single app

Completely local operation

Powerful scene editor

No additional hub required
*except when using Thread devices

KNX to Crestron Home

Available on:

Effortlessly integrate KNX into Crestron Home

Automatically import your KNX setup into 1Home

Connect into Crestron Home with a Crestron driver

Start using KNX devices in Crestron Home

Complex logic made simple.

Make smart homes truly smart. Create advanced automations effortlessly, with no ETS knowledge required. All running locally.
