

LUXURY

Just went out the door.

Introducing the Landscape Bollard Loudspeaker from Origin Acoustics. High performance 360-degree acoustics lens. Easy to bury subwoofer, standard. 70v or 4-ohms. Even, balanced, crystal clear sound everywhere.

ORIGIN
ACOUSTICS

From sprawling manor houses to urban high-rise gardens, Origin Acoustics has an outdoor loudspeaker for you.

PURPOSE BUILT FOR OUTDOOR INSTALLATIONS

The Bollard also has two dispersion options. One is omnidirectional allowing sound to project 360° from the enclosure. The second is accomplished with an insert to limit the sound to half of the dispersion or 180° from the enclosure. This is perfect for border areas where you are concerned about unwanted sound spilling into a neighbor's yard or an area where the music is simply unwanted.

PEAK PERFORMANCE

A 70V transformer with 30W, 50W and an 8 ohm tap makes the speaker a perfect choice regardless of the size and number of speakers needed. DSP settings for the Bollard in the Origin DSP3-700 amplifier assure peak performance from the system.

BOLLARD LANDSCAPE DESIGN

Here is an example of a typical Bollard layout. With the dispersion at 360°, the bollards can be placed in positions to maximize coverage.

Available In Round or Square Shell, Silver, Bronze or Black Colors.

MODEL	LSB64SQ & LSB64RD
Woofer	6 ½" Poly Woofer
Midrange	4" Aluminum
Tweeter	1" PEI
Frequency Response	48HZ - 20KHZ
Subwoofer Diameter	12 ½" (315mm)
SAT Diameter	5 ½" (140mm)
Power RMS	60W
Power Peak	100W
Impedance	8 ohm/70V
Mounting Depth	8 ½" (212mm)

STYLISH STRUCTURE

Each Bollard has its own 6 ½-inch sub in the base of each enclosure. Burying the small sub base in the ground, the larger portion of the enclosure is hidden from sight. The upper structure is a round enclosure design and houses the 4-inch mid/high frequency transducer 18-inches above the ground.
